11 May 2011

Dear Honey:

Thank you very much for speaking at the May 6<sup>th</sup> meeting of the Gulf Coast Chapter of the Financial Planning Association. It was very valuable to our members to hear from you about the topics and trends in long term care. I know your talk spurred me to review my own mother's situation.

The members appreciated what you had to say, and it was good to know that we have resources available. I hope it leads to business for you.

I also appreciated that you brought the member of the GSE team from Brazil.

Again, thank you very much for speaking last Friday.

Sincerely,
