

From email dated November 9, 2006

“3 days fly by ... and all I can say is wow ... am I truly honored that each of you (the Summit panelists) gave of your time, your support and your ideas. I know you could see the positive reactions of people after each of the programs.

Thanks to you, we have taken the industry and the association another step forward. I am most sincerely grateful (personally) ... each of you keeps me recharged doing what I love to do. Together we can do some really cool stuff ... my honor to know you all.”

Jesse
